AT18266C Antisticking Endoscopic Linear Cutter

ENDOPA™ AT18 FLEX Antisticking Endoscopic Linear Cutter loaded with a standard (blue) cartridge delivers two triple-staggered rows of staples while simultaneously dividing the tissue between the rows. An antisticking lever enables lateral movement of the instrument jaw. The antisticking lever is designed to prevent the staple line of 3mm long. The instrument is reloadable with either a standard (blue/AT1826) or Vascular (white/AT1826V) reload. The instrument can be reloads several times for a maximum of eight things per instrument. The instrument's safety lock prevents the instrument from being fired until the safety lock is released. A safety lock prevents the instrument from being fired until the safety lock is released. A safety lock prevents the instrument from being fired until the safety lock is released.
